

Geography and Vision (Hardback)

By Denis E. Cosgrove

I.B.Tauris Co Ltd, United Kingdom, 2008. Hardback. Book Condition: New. 234 x 157 mm. Language: English . Brand New Book. Leading geographer Denis Cosgrove provides a series of personal reflections on the complex connections between seeing, imagining and representing the world geographically. In a series of eloquent essays he draws upon pictorial images - including maps, sketches, cartoons, paintings, and photographs - to explore and elaborate upon the many and varied ways in which the vast and varied earth, and at times the heavens beyond, have been both imagined and represented as a place of human habitation. The essays include reflections upon geographical discovery; urban cartography and utopian visions; ideas of landscape and the shaping of America; wilderness and masculinity; conceptions of the Pacific; and the imaginative grip of the Equator. Extensively illustrated, this engaging work reveals the richness of the geographical imagination as expressed over the past five centuries.
