

The Canadian Medical Review, Vol. 7: January, 1898 (Classic Reprint)

By Unknown Author

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Canadian Medical Review, Vol. 7: January, 1898 Phthisis And Its Treatment. Phthisis is pre-eminently a wasting disease, and by exalting failing nutrition, cod liver oil being little more than a given food, a great advance was made in therapeutics. It has been found, however, that the oil does not in many cases meet the indications; for not only is nourishment needed, but the digestive power is so reduced that but little use is made of the food taken. Hence a demand both for nutritious material and also for something which will aid food suitable for assimilation. The clinical startingpoint in the history of the greater number of cases of phthisis is malnutrition, and when that is guarded against much is accomplished. After a full trial of the different oils and extracts of malt preparations in both hospital and private practice, I find Maltine most applicable to the largest number of patients, and superior to any remedy of its class. Theoretically we would expect this preparation, which has become practically officin.l, to be of great...
