

Drug Discovery and Traditional Chinese Medicine

Filesize: 2.33 MB

Reviews

A whole new eBook with a brand new point of view. It is definitely simplistic but shocks in the 50 percent of the publication. I am just pleased to explain how this is the greatest ebook i have read during my very own daily life and could be he best ebook for possibly.

DRUG DISCOVERY AND TRADITIONAL CHINESE MEDICINE

Book Condition: New. Publisher/Verlag: Springer, Berlin | Science, Regulation, and Globalization | The "First International Conference on Traditional Chinese Medicine: Science, Regulation and Globalization" was held from August 30 to September 2, 2000 at the University of Maryland at College Park, Maryland. There were approximately 250 participants from the Peoples Republic of China, Taiwan, Hong Kong and the United States. This objective of this conference was to promote international collaboration for the modernization of Traditional Chinese herbal medicines (TCM) and their introduction into the global health care system. It was mainly sponsored by the Ministry of Science and Technology of the People's Republic of China and the NIII National Center for Complementary and Alternative Medicine (NCCAM). It was organized by Dr. William Tai, then director of the Institute of Global Chinese Affairs at the University of Maryland and Dr. Yuan Lin, president of Marco Polo Technologies, Bethesda, MD. This conference was conceived by Dr. Tai two years earlier recognizing that this was an appropriate time and also the unique location of the University of Maryland. Today, there is a growing recognition of the of alternative medicine in modern societies and the rapid loss of importance knowledge about traditional methods for the treatment of the multitude of human illnesses found throughout the world. TCM has been in common use in China for thousands of years; and many of its formulations are well defined. | Preface. Acknowledgements. 1. Approaching Traditional Chinese Medicine: Inheritance and Exploration; Yongzheng Hui. 2. Floras, Plant Conservation and China's Future; P.H. Raven. 3. Natural Products Drug Discovery and Development at the United States National Cancer Institute; G.M. Cragg, D.J. Newman. 4. The Global Importance of Plants as Source of Medicines and the Future Potential of Chinese Plants; J. Miller. 5. Food, Medicinal Plants and Other Edible Materials as...
