Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Lulu.com, United States, 2014. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Akira Kawamoto, who has recently retired from Japanese government, writes on current Japanese economy and policies of Abenomics, based on his experiences and insights. While working for investment business now, he teaches on the subject at Keio University in Tokyo as Project Professor at Economics Faculty. He argues, while reform momentum created by the current Abe administration is substantial, there are risks that progress can be ultimately stalled. Politicians, administrators and business leaders should address root causes of problems that severely constrained past reform efforts. This is the summary and updated version of Kawamoto s earlier book published last year in Japanese from Nikkei Publishing. (Why Japan Cannot Follow Through With Reform) It is certain that this publication will contribute to the ongoing debate on Japanese economy.
