JOINT AIRSPACE CONTROL (JOINT PUBLICATION 3-52)

Createspace Independent Publishing Platform, United States, 2012. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.This publication provides doctrine for the planning, execution, and assessment of airspace control during joint operations across the full range of military operations. It also discusses airspace control across the phases of military operations, emphasizing transitions from, and back to, civilian controlled airspace. This joint publication prescribes doctrine for joint airspace control in the operational area. The prescribed doctrine is broadly stated to fit a wide range of situations requiring military control of airspace. It outlines fundamental principles, relationships, and broad operational-level guidelines, and is intended to provide the basic framework upon which to build an airspace control system (ACS) for an operational area. The joint force commander (JFC) normally designates a joint force air component commander (JFACC) as commander for joint air operations. The JFC also normally designates an area air defense commander (AADC) and an airspace control authority (ACA). When the JFC designates a JFACC, the JFC also normally designates the JFACC as the AADC and ACA. The ACA plans, coordinates, and develops airspace control procedures and operates the ACS. The JFC may designate a separate ACA and/or AADC, in which case, close coordination is essential for unity of effort. The ACA develops a specific airspace control plan (ACP) that is approved by the JFC. The ACP should be closely integrated with the JFC-approved area air defense plan (AADP) developed by the AADC. Joint airspace control increases combat effectiveness by promoting the safe, efficient, and flexible use of airspace with minimum restraint upon airspace users, and includes coordinating, integrating, and regulating airspace to increase operational effectiveness. Effective airspace control reduces the risk of fratricide, enhances air defense, and permits flexibility. Airspace control operations...
