

# Scribblings on Life, Spirituality & Non-duality

By Mahesh Hangal

Zen Publications, Mumbai, 2013. Soft cover. Book Condition: New. 22 cms. 115pp. The human being has always been anxious to know the meaning of life, to realize his true nature, to attain the ultimate possible fulfillment. These scribblings may perhaps trigger a process that might finally culminate, in what the human heart has always longed for-peace and harmony. The least they will do is help develop insights beyond ordinary perceptions. They could even be read just for entertainment or can simply be flipped through. Many have claimed that these mystical musings have in them an intrinsic ability to awaken dormant intuitive understanding. Profound yet pragmatic, they hammer away at our basic misconceptions rendering the psyche free of all erroneous concepts. From the profane to the sacred, the mundane to the mysterious, the seemingly trivial to the most fundamental, get ready for an eclectic serving of cosmic titbits. For all you know, this little book could be the one, you may have been vehemently longing to read.

## Reviews

*This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

*This publication is amazing. It is definitely basic but shocks in the fifty percent of your publication. You won't feel monotony at anytime of your own time (that's what catalogues are for concerning if you question me).*
