Brand New Book ***** Print on Demand *****.The moral family unit is the key to the success of any family literacy program. It is through the family that the seeds of literacy grow. The impact of the parent-child interactions establishes and nurtures the importance of moral literacy. The role of the parent as a model cannot be underestimated. It is through modeling that the child establishes lifetime patterns. Initially the child imitates the modeled behaviors and eventually adopts these behaviors. When parents read to their children it assigns a moral positive value to literacy. Not only are the parents showing the child that reading is a good thing, but the parent also experiences the positive reinforcement of developing his or her own moral skills. This book will be used by the children, students within their own moral life, and with their own family and extended family units in the moral spirit of family literacy. Our children, grandchildren, nieces and nephews of our children gave very positive reviews. A multiple intelligence approach was used in the creation and development of both children's books.
