Since the 16th century, Mathematicians and Sociologists have anticipated a time when politicians would solve human problems the way Scientists solve theirs, rather than through fraud, corruption, violence and warfare. There is an analogy between the Human Body and Scientific Democracy Scientific Democracy has an analogy with the working of the Human Body. This is shown in Part 15, Sections A, B, and C. Biological theory led to the Organic Theory of the State. Both Plato and Aristotle argued that the State was an organism. They argued that the cell is to the human body as the individual is to the State. Therefore the rights of the State precede the rights of individuals. Others who believed in this theory were the philosophers Claude Saint Simon, Herbert Spencer, and the Communists. Sociologists have anticipated a time when politics would become a Science, and Laws would be indisputable principles, not the Whims of elected Rulers. Please refer to Parts 1, Sections A, B and C and Part 15, Section A. In the 16th Century, Francis Bacon published his book in which he gives a vivid picture of mankind guided by the Sciences. Later, Rene Descartes tried to work out a scientific system of society but failed. In 1813, the French sociologist Claude Saint Simon published his book in which he expressed the idea that politics would become a positive science and that political problems would be solved in the way scientists solve theirs. In the nineteenth Century, Herbert Spencer expressed the belief that Politics was moving from a system based on irrational desires and ambitions to an...
